DETAILED ACTION

Drawings

1. The drawings were received on December 08, 2003. These drawings are acceptable.

Specification

2. The abstract should be in narrative form and generally limited to a single paragraph within the range of 50 to 150 words. The abstract should not exceed 25 lines of text. Abstracts exceeding 25 lines of text should be checked to see that it does not exceed 150 words in length since the space provided for the abstract on the computer tape by the printer is limited. If the abstract cannot be placed on the computer tape because of its excessive length, the application will be returned to the examiner for preparation of a shorter abstract. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should sufficiently describe the disclosure to assist readers in deciding whether there is a need for consulting the full patent text for details.

The abstract of the disclosure is objected to because it contains more than 150 words and 25 lines. Correction is required. See MPEP § 608.01(b).

Allowable Subject Matter

3. Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art of record neither teach nor make it obvious as a whole the calimed limitation of the instant application, as recited in claims 1, 8 & 16, either taken alone or

in combination. In particular, prior arts fail to teach the isolation layer formed from and over the first conductive channel, interposing the first conductive channel and the second conductive channel and configured both to isolate said second conductive channel electrically from said first conductive channel and transfer momentum between charge carriers in said first conductive channel and charge carriers in said second conductive channel.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

5. This application is in condition for allowance except for the above formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
